

Case Study: Energy

# Dexian Successfully Partners with Leading Technology/Management Consulting Firm to Deploy Resources on Client Sites

©Dexian, LLC, 2023 | 4320188071

## Challenge

The firm's client needed a team of junior and senior Maximo consultants for locations in North Carolina, South Carolina, Georgia and Texas. The team supported multiple business units and required skill sets in Maximo, Oracle and Java.

**CLIENT:**

A top management consulting firm supporting an energy company.

**LENGTH OF CONTRACT**

18 Months

**PLACEMENTS**

24+

Consultants

## Solution

Dexian worked with the business to define requirements; complete design, reviews, and manage a 6–10 person development team through the software delivery cycle. Qualified junior and senior Maximo consultants were provided within the budgeted rates.

**SKILL SETS**

- Lead Maximo
- Maximo Developer with Java
- Maximo Administrator
- Maximo Systems
- Administrator

## Outcome

Dexian provided top Maximo consultants, on time and within budget. These consultants worked with the technology lead to estimate, plan, and deliver periodic releases of code changes to production. In addition, they managed tier 3 responses, restored and repaired activities for end users, and assisted the client with managing system level events.
